2.	SUSTAINABILITY WORK			
	Company's certification			
	✓ ISO 9001 ✓ ISO 14001			
	Other:			
	Policies and guidelines			
	The company has a code of conduct/policy/guidelines for dealing with sithe requirements	social responsibility in the supplier chain, including produces for ensuring		
	This is third-party audited			
If yes, which if the following guidelines have you affiliated to or management system you have implemented				
	UN guiding principles for companies and human rights			
	ILO's eight core conventions			
	OECD Guidelines for Multinational Enterprises			
	UN Global Compact			
	ISO 26000			
Other policy guidelines				
	Management system			
	If you have a management system for corporate social responsibility, what ou	at of the following is included in the work?		
	Mapping	tor the following is included in the work:		
	Risk analysis			
	Action plan			
	Monitoring			
	Sustainability reporting guidelines:			

# 3. DECLARATION OF CONTENTS

#### **Chemical content**

Enter chemical content for the whole article. The concentration is calculated at component level according to the principle of "once an article always an article".

Is there a safety data sheet for the article?		Is there classification of the article?				
Not applicable		Not applicable				
Enter which version of the candidate list has been used (Year, month, day)		For complex products, the concentration of included substances has been calculated at:				
		component level				
The article is covered	The article is covered by the RoHS Directive:			Enter the weight of the article:		
No			0.19 kg			
Enter how large a pro	pportion of the material content h	as been declared [%				
J. 100						
If the article contains nanomaterials deliberately added to obtain a particular			unction, enter these here:			
Is the article registere	ed in Basta?		Enter the proportion of volatile organic substances [g/litre], applies only to sealants, paints, varnishes and adhesives:			
Yes						
Other information:						
Article and/or	r sub-components

# 4. RAW MATERIALS

#### Raw materials

Raw Illaterials				
Total recycled material in the article				
Is recycled material included in the article?				
Renewable material				
Enter proportion of renewable material in the article (short cycle, less than 10 years):	Enter proportion of renewable material in the article (long cycle, more than 10 years):			
Included biobased raw material is tested according to ASTM test me	ethod D6866:			
Is there supporting documentation for the raw materials for third-party certification processes or similar (for example BES 6001:2008, EMS certification).				
Wood raw materials				
Wood raw materials are included	Included wood raw material is certified			
How large a proportion is certified [%]?				
What certification system has been used (for example FSC, CSA, SFI with CoC, PEFC)?				
Reference number:				
Enter logging country for the wood raw material and that following criteria h	nave been met. Country of logging:			
Does not contain type of wood or origin in CITES appendix of endangement	ngered species			
The timber has been logged legally and there is certification for this				

#### 5. ENVIRONMENTAL IMPACT

# Environmental impact during life cycle of the article, production phase module A1-A3 under EN Has environmental product declaration been drawn up according to EN 15804 or ISO 14025 for the article? These product-specific rules, known as PCR, have been applied: Registration number / ID number for EPD: Climate impact (GWP100) [kg CO2-eq]: Ozone depletion (ODP) [kg CFC 11-eq]: Acidification (AP) [kg SO2-eq]: Ground-level ozone (POCP) [kg ethene-eq]: Eutrophication (EP) [kg (PO4)-3-eq]: Renewable energy [MJ]: Non-renewable energy [MJ]: If calculation has been made in Green Guide, enter which rating: If there is environmental product declaration or other life cycle assessment, describe how the environmental impact of the article is taken into account from a life cycle perspective: 6. DISTRIBUTION Distribution of finished article Does the supplier apply any system with multiple-use packaging for the Does the supplier use Retursystem Byggpall? article? Νo No Does the supplier take back packaging for the article? Is the supplier affiliated to a system for product responsibility for packaging? No Yes If yes, which packaging and which system? FTI Other information: 7. CONSTRUCTION PHASE **Construction phase** Does the article make special requirements in storage? No Specify Does the article make special requirements for surrounding building products? Not applicable Specify

Other information:

# 8. USE PHASE

### Use phase

9.

Does the article make requirements for input materials for operation and maintenance?	
No	
Specify:	
Does the article require supply of energy during operation?	
No	
Specify:	
Estimated technical service life for the article:	
25 years	
Comment:	
Is there energy labelling under the Energy Labelling Directive (2010/30/EU) for the article?	If yes, enter labelling (G to A, A+, A++, A+++):
Not applicable	
Other information:	
DEMOLITION	
Demolition	
Is the article prepared for disassembly (dismantling)?	
Yes	
Specify:	
Demonterbar	
Does the article require special measures for protection of health and environment in demolition/disassembly?	
No	
Specify:	
Other information:	

### **10. WASTE MANAGEMENT**

#### **Delivered article**

Is the supplied article covered by the Ordinance (2014:1075) on producer responsibility for electrical and electronic products when it becomes waste?
No
Is reuse possible for the whole or parts of the article when it becomes waste?
Yes
Specify:
Om varan är intakt
Is material recovery possible for the whole or parts of the article when it becomes waste?
Yes
Specify:
Se materialspecifikation, ingående komponenter.
Is energy recovery possible for the whole or parts of the article when it becomes waste?
Yes
Specify:
Ja, ingående polymera material
Does the supplier have restrictions and recommendation for re-use, material or energy recovery or landfilling?
No
Specify:
Waste code for the delivered article when it becomes waste
170904 - 04 Annat blandat bygg- och rivningsavfall än det som anges i 17 09 01–17 09 03.
When the supplied article becomes waste, is it classified as hazardous waste?
No
Mounted article
Is the mounted article classified as hazardous waste?
No
Other information

#### Other information

### 11. INDOOR ENVIRONMENT

#### **Indoor environment**

The article is not intended for indoor use			
The article does not produce any emissions			
Emissions from the article not measured			
Does the article have a critical moisture state?			
No			
If yes, state what:			
Noise	Electrical field	Magnetic fields	
Can the article give rise to own noise?	Can the article give rise to electrical fields?	Can the article give rise to magnetic fields?	
No	No	No	
Value:	Value:	Value:	
Unit:	Unit:	Unit:	
Measuring method:	Measuring method:	Measuring method:	
Paints and varnishes			
The article is resistant to fungi and algae in	use in wet areas		
Emissions			

The article produces the following emissions in intended use:

#### Other information
